Introduction

The Office of Institutional Research (IR) at Arapahoe Community College will produce two reports (census and end of term) every semester, including Summer. The data for these reports will be extracted from our student information system, Banner/Operation Data Warehouse (ODS), at different times.

- Census report: The data freeze will be done 2 days after the census date (15 week census date for Spring and Fall and 8 week census date for Summer). The report will be generated roughly 3 business days after the data freeze.

- End of term report: The data freeze will be done 2 days after the end of the term. The report will be generated roughly 3 business days after the data freeze.

Read the notes for each table to understand the context of the report and know the data extraction time.

Data items were selected based on the frequency of report requests from different constituents and some best practices. If you have additional data requests or questions please contact the IR office directly.

Thank you.

Student Enrollment

Head Count

The number of students enrolled for credit into a countable class with each student counted only once during the reporting period. The count excludes all students enrolled into non-countable class and students who enrolled for non-credit—these are NCTI* students, students who are auditing a class and students who dropped late for administrative reasons.

Student Head Count by Academic Term	FA 2013 (201420)	FA 2014 (201520)	FA 2015 (201620)	FA 2016 (201720)	FA 2017 (201820)
Unduplicated Head Count	9728	9246	9198	9224	9618

* ACC's partnership with NCTI allows broadband cable industry employees to earn a career-related degree or certificate(s) at ACC; however, the courses are designated for NCTI affiliates and are not considered 'countable', for reporting purposes.

Non-Countable (NC) Class

Head Count reflects the number of students enrolled into a non-countable class with each student counted only once (unduplicated) during the reporting period.

Non-Countable Head Count by Academic Term	FA 2013 (201420)	FA 2014 (201520)	FA 2015 (201620)	FA 2016 (201720)	FA 2017 (201820)

Full-Time Equivalent (FTE)

Full-time Equivalent or 'FTE' is a measure of students' academic enrollment activity and is calculated by dividing all countable credit hours by 30 credits. FTE of 1.0 is equivalent to a student enrolled full-time (30 credits completed in an academic year). In the table below, FTE for high school students is included in the main campus calculations but is also displayed as a separate category, for convenience. FTE for high school students is calculated as the sum of all countable credit hours of all high school students (all types, as shown in the Concurrent Enrollment section of this report) divided by 30 credits.

FTE by Campus	FA 2013 (201420)	FA 2014 (201520)	FA 2015 (201620)	FA 2016 (201720)	FA 2017 (201820)

Student Enrollment Status

Student Time Status

A full-time student is enrolled for 12 or more semester credits and students enrolled in less than 12 credit hours are classified as part-time. The table below displays the count of registered students in each category, including the breakdown of semester credits enrolled; percentage calculation is based on Fall 2017 counts.

CE Graduate Status

The IR Office utilizes the high school graduation date in Banner (Student Information System) to determine if a CE student has graduated from high school. For students whose graduation date is not listed, only those who did not return and are at least 17 years old at the end of the prior Spring term are considered to have graduated. Calculations for this section are only completed for the Fall Data Book; results for most recent Fall terms will be copied to subsequent Spring and Summer Data Books.

- **'Returned' graduates** are those who re-enrolled at ACC in the Fall semester immediately following their high school graduation with a student admit type other than 'High School'.
- **'Retained' graduates**:
  - High school graduates who re-enrolled at ACC in the Fall semester immediately following their high school graduation <u>and</u>
  - High school graduates who also earned an ACC degree or certificate but did not re-enroll in the Fall semester immediately following their high school graduation.

Non-Returning CE Graduates - College Type Attended

Following is a table that indicates the number of CE Graduates who did not re-enroll at ACC in the Fall term immediately following their high school graduation date, as well as the type of institution(s) they attended in that Fall term. For the institution type break-out, graduates are counted no more than once per institution type but may be counted at multiple institution types, based on their Fall enrollment status as determined by National Student Clearinghouse data.

Non-Returning CE Graduates – Top 10 Colleges Attended

Based on data collected from the National Student Clearinghouse, the following are the top 10 colleges attended by former ACC CE students in the Fall term immediately following their high school graduation. The counts shown are duplicated, meaning one student attending multiple schools will be counted multiple times within the table. Schools are sorted in descending order, based on the most recent term of enrollment data.

Enrolled Student Demographics

Gender

Gender data is taken from the student self-reported information on admission application. IPEDS reporting requires that we assign unknown or non-reported gender as either male or female, we do so based on the student Social Security Number (SSN). If the SSN is odd, then the student is designated 'female', otherwise, they are designated 'male', again, only for IPEDS reporting purposes. If the student has no SSN then we apply the same rule to the student ID number (S#). The table below displays the count of registered students in each category; percentage calculation is based on Fall 2017 counts.

Unduplicated Fall Enrollment by Gender	FA 2013 (201420)	FA 2014 (201520)	FA 2015 (201620)	FA 2016 (201720)	FA 2017 (201820)	% of FA 2017

Age Group

Enrolled student age group based on the student's age at the time of admission. Mean Age is obtained by computing the arithmetic average of all ages for ACC students' registered for the term. Median Age is the 50th percentile, obtained by creating a list of registered (for the term) students' ages in numerical order. The table below displays the count of registered students in each group; percentage calculation is based on Fall 2017 counts.

Ethnicity is a self-reported data field on the admission application. In 2010, the Federal Government issued new guidelines on how to collect and report race and ethnicity which is often is referred us as the 'IPEDS Ethnicities'; the counts below are calculated based on the IPEDS Ethnicities guideline. The table below displays the count of registered students in each category; percentage calculation is based on Fall 2017 counts.

Residency

There are several types of residencies and residency exceptions; the calculations below represent the student residency, not tuition residency.

- **Non-Resident** - Students who have not provided valid documentation of residence in Colorado.
- **Resident** - Students who have provided valid documentation of residence in Colorado.
- **ASSET** - Colorado state law allowing eligible, undocumented students to receive in-state tuition at Colorado public higher education institutions.
- **WUE** - The Western Undergraduate Exchange (WUE) program may allow for a reduction in tuition for students who are residents of one of the participating western states and who do not intend to create domicile in Colorado or take online courses. Participating states include Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming, and the Commonwealth of the Northern Mariana Islands.

Retained & Returning Student Data (Fall to Fall)

Subsequent Fall Enrollment Status (Non-CE Students)

"Returned" or "re-enrolled" students are those who have countable enrollment at ACC in a Fall semesters and also have countable enrollment in the subsequent Fall term. "Retained" students include "returning" students as well as those who have countable enrollment in a Fall term and earn a certificate or degree from ACC prior to the next Fall term but do not return. Data in this section excludes CE students.

Countable, Unduplicated Non-High School Student Retention (%)	Enrolled FA 2012 N = 8122	Enrolled FA 2013 N = 7759	Enrolled FA 2014 N = 7110	Enrolled FA 2015 N = 6595	Enrolled FA 2016 N = 6198
Re-Enrolled Subsequent Fall (%)	39.9%	39.5%	39.1%	38.9%	39.9%
Did Not Re-Enroll Subsequent Fall (%)	60.1%	60.5%	60.9%	61.1%	60.1%

% Not Retained in Subsequent Fall	49.0%	48.9%	47.7%	48.2%	47.8%

Calculations (includes only countable, non-CE students):

% Retained = (# of students enrolled in both initial and subsequent Fall terms + # of students who did not re-enroll in subsequent Fall term but earned a degree/ certificate prior to subsequent Fall term) ÷ total # of students enrolled in the initial Fall term.

% Not Retained = # of students enrolled in the initial Fall term but not in the subsequent Fall term - # of students enrolled in the initial term who did not re-enroll the subsequent Fall but earned a degree/ certificate prior to subsequent Fall term) ÷ total # of students enrolled in the initial Fall term.

Returning Student Demographics (Non-CE Students)

The percentages of returning (non-CE) students shown in the tables below are calculated by dividing by the number of students in a particular category (for example, Asian, Hispanic, Female, or Male) who were enrolled in a Fall term and re-enrolled in the subsequent Fall term by the total number of students (same category) enrolled in the initial Fall term. The combined numbers for each term are not expected to total 100%, as the calculation is a percentage of students for each category rather than a percentage of all students enrolled for the term.
