

Student Success Center

Room M2720

303.797.5669

- **Peer Mentoring and Tutoring:** Advanced students who have excelled in ACC courses help with general college information and specific academic assistance. From time management to test-taking, these student ambassadors provide valuable tips on what it takes to be successful.
- **Professional Tutoring:** Certified tutors offer individual and small group sessions for a variety of subjects including accounting, business, computer applications, economics, foreign languages, physical and social sciences, and other courses by request.
- **Math Support:** ACC math instructors provide help with concepts, homework, online resources and graphing calculator workshops. Students may watch course related videos and DVDs in the library.
- **Writing Center:** ACC writing instructors offer one-on-one assistance for any course at any stage of the writing process. Students can use computers, ask formatting questions, learn research and documentation skills, obtain helpful handouts, and access reference materials.
- **Supplemental Instruction:** ACC graduates and instructors conduct weekly sessions in anatomy/physiology, chemistry, and nursing to review lecture material, help prepare for lab practical exams, and improve overall study strategies.
- **SkillsTutor™:** Students can access a self-paced, online learning program that identifies skill gaps and generates interactive lessons in reading comprehension, vocabulary, writing, grammar, math, and algebra. Ideal for students preparing for the ACCUPLACER assessment test.
